

Miss MOLECULE & friends (episode 2) | METHANE

BOG (naturally occurring methane)

SYNTH (human-caused methane)

Exciting Free resources for KS2 & 3 to learn about methane.

Methane is a potent greenhouse gas that traps heat in our atmosphere. Due to human activities like farming and industry, its levels are currently at a record high. Fortunately, solutions are emerging, such as converting cow manure into clean energy and using satellites to detect methane leaks worldwide.

Discover exciting ideas with our FREE resources! Plus, you can book a FREE expert visit to your school to learn more about methane and climate action.
